

REPORTING WHAT MATTERS: THE ENGLISH OF SUSTAINABILITY, DISCLOSURE, AND ESG ACCOUNTABILITY

Diretta web | Orario: 14.00 - 16.00

30 ottobre 2026
06 novembre 2026
13 novembre 2026

Non-accredited recordings remain available for 30 days following the end of the course. Recordings can be accessed directly through Oversea's KATTEDRA platform using your personal login credentials.

PRESENTAZIONE

ESG is reshaping how companies are assessed and held to account - and the language of ESG is almost entirely in English. From TCFD recommendations to CSRD requirements, professionals who can read, write, and discuss sustainability reporting in English have a genuine competitive advantage.

FRUIZIONE

The course will be delivered entirely through Oversea's KATTEDRA platform and can be accessed using your personal login credentials.

PROGRAMMA

- ESG frameworks in English: GRI, TCFD, CSRD, and ESRS - what they require and how professionals talk about them
- Sustainability reporting vocabulary: materiality assessments, double materiality, scope 1/2/3 emissions
- How to write ESG disclosures and non-financial statements in professional English without greenwashing language
- Communicating ESG performance to investors, regulators, and the public: tone, precision, and credibility
